Valid on new bookings only and confirmed within three weeks of wedding fayre

Can't Wait to Get Married?

Here's how to plan your dream day at Ufton in
6 months or less...

Book your registrar / church / celebrant

Once your date with us is secured, your first step will be to choose the type of ceremony you would like (church/civil/humanist), if you haven't done so already and get your ceremony booked in. We are flexible on times, so choose a start time that feels right for you.

Book your caterer

Feel completely safe in the knowledge that you will have a fabulous food. Our six caterers have been carefully selected due to their expertise and reliability. Enquire with them ensuring you include your wedding date & estimated guests numbers and they will provide you with quotes.

Meet with your coordinator

We'll invite you in for an initial meeting with your Ufton wedding coordinator. Here we will run through your day, discuss your ideas so far & help you proceed with the planning process. We know the venue inside out and know what works - our advice and guidance will make the process simple & stress free.

Choose your decor

This part can seem overwhelming; knowing which suppliers to go with, organising them all and tying everything together. Why not keep it simple & hire your event dressing from 'The Wedding Store' - our very own décor range, designed especially for our Ufton couples. We put everything out for you, we pack everything away...and the best part....all profits from these items go directly towards the charity too!

Confirm your final details

Have a final meeting with your coordinator to run through your day one last time. Bring all of your plans together and then just...

Relax and enjoy your day
